Trip Itinerary

Day 1 : Flight to Paro. After arrival, sightseeing tour

Fly over to the dragon kingdom Paro passing by Mountains of 5500 meters to Paro. This flight offers you a mesmerizing aeronautical feat and offers exciting descent into the kingdom. Paro is a beautiful valley and is home to many of Bhutan's oldest monasteries and temples, and the country's only international airport. The flight to Paro is one of the most spectacular mountain flights in the world, with a constantly changing panorama of some of the highest mountains on earth including Mount Everest, Mount Kanchenjunga, and Mount Chomolhari and Jitchu Drake peak. Paro Airport has been described as "the most difficult commercial airport in the world". 1980 meter runway length presents a double challenge, due to the extremely low density altitude at the site. So, only a handful of well experienced pilots are certified to operate commercial airplanes here thus, making least number of flights in a day. After immigration and custom formalities, check out from the departure lounge. There you will meet one of the representatives of Nature Trail Travels & Tours, Trekking & Expedition who will greet you and then escort you to your respective hotel where you will stay overnight. After lunch, at the hotel there will be an orientation on Bhutanese etiquette and description about the trip by our guide. This day we will take easy to acclimatize to the altitude.

Day 2 : Taktsang monastery hike and running adventure

On the second day of our tour, we will have a short hike up to Taktsang monastery. Clinging to the cliff walls 3120 meters above sea level, the Tiger's Nest Buddhist temple complex is a wonder to behold. Taktsang is a prominent sacred Buddhist site and temple complex perched on the edge of upper Paro

Valley. It is also known as the Tiger's Nest. History unfolds as we hike and run to the summit, learning the stories of this holy and magical place high up on the mountain slopes along the way. Legend has it that the great Guru Padmasambhava flew to this spot on back of a tigress and meditated in a cave during the 8th century. When the Guru finished his meditation, he instructed that the monastery to be built. The temple was built around the cave and is a hallowed shrine for Bhutanese pilgrims. The area around the monastery offers stunning views of majestic mountains and emerald green valleys. The spectacular view along the way and the historical sites draw many tourists to this imposing monastery. In addition, guests will have an impressive opportunity to hang prayer flags in the immediate vicinity of the monastery. Prayer flags symbolize happiness, long life, prosperity, luck and offer karmic merit to all sentient beings.

Day 3 : Punakha: Race day preparation

This morning enjoy an exhilarating drive to Punakha via Dochu La Pass at an altitude of 3,088 meter through stunning valleys and chir pine forest. On a clear day, you will see a breathtaking view of the snow-capped eastern Himalayas and also a magnificent distant view of the Gasa Dzong from this spot.
