## Overview

---

This Bungy jump we organize with 'Bungy Nepal Adventure' which is one of Nepal's premier adventure tourism companies, which specializes in infrastructure tourism using regional and natural bridges. It is the only company in Nepal offering a natural double-deck cantilever bridge bungy.

Our collaboration with Bungy Nepal Adventure was from the beginning when they started in 2018 with the motive to provide quality service, a unique culture, a safe environment, and customer satisfaction. We believe in providing a totally safe environment in harmony with the local culture where people can present themselves with the ultimate personal challenge & achieve something they never dreamed possible.

Like Nature Trail, Bungy Nepal Adventure strives to provide a positive and rewarding experience in a safe and controlled environment. It gives an exciting chance to face your fears and test your own potential, offering an experience that you will never forget. They focus on helping every jumper discover the inner strength to overcome their fear by providing an extreme test of courage in a safe, professional, and fun way, which best way as we do with Nature Trail.
