Overview

Panchase Hill Trek is an amazing and delightful trek which takes you through rhododendron forest, amazing villages, terraces, plains and rivers.

Panchase trekking is a short and low altitude off-the-beaten track in the Annapurna region starting south-west side of Pokhara. Located in the west of Pokhara, Panchase hill is situated at an altitude of 2500 meter above sea level. This trek offers you various species of bird along with gigantic views of Mountains which includes: Mount Fishtail, Mount Dhaulagiri and Annapurna Ranges. Embarking our tour, we complete our day birding tour in the nearby area of Kathmandu, Godavari. Godavari is the most famous place nearby Kathmandu which is popular for the Botanical Garden and is an ideal place for the bird lovers. Ornithologist who does not have enough time to observe the species of birds found in Nepal can engage themselves in this day birding tour. Afterwards, we will travel to Pokhara and have a relaxing evening taking an hour boat ride to Phewa Lake. The next day our trek begins from Khare Khola all the way ascending up towards Bhumdi. From Bhumdi, we trek towards Panchase Bhanjyang, the main point of our trek. While engaging in Panchase Hill Trek, we can experience different topographical structures which vary from subtropical valleys of rice paddies to ridges and green thickets where rhododendron and other wildlife are found in abundance. While on Panchase trekking you will encounter many ethnic groups of people such as Brahmin, Magar, and Gurung living in various settlements and be able to observe their unique culture and traditional lifestyle. Panchase Hill has religious significance as well. It holds a temple where thousands of pilgrims visit daily to worship and cleanse off their sin. Continuing our trek, we pass through forest, valleys, green hills, rivers and cross along Bhadaure, Sarangkot and finally ending our trip to Pokhara.

Panchase trek is suitable for all levels of trekkers from young to old, family with children and newly married couples. For Panchase trekking it is not necessary that trekkers should be experienced in hiking and trekking in the mountain. Anyone can accomplish the trekking to Panchase easily without ascending higher altitude. For Panchase trekking the months from February to May and from August to December would be the best time.
